Math Olympiads for Elementary and Middle Schools

Take the innocuously named Question 6, which is so complex, it can bring mathematicians to tears. As mathematician Simon Pampena explains the Numberphile video above, the Legend of Question 6 spawned from a maths competition for high-schoolers held in Australia in 1988. (Yep, they make 'em tough down here.) The competition was the International Mathematical Olympiad, which is held every year in a different country, and only six kids from every country are selected to compete.
