students for a fast-paced workplace that is becoming increasingly technical. This comprehensive textbook includes information on MIG welding, HVLP spray painting, paintless dent repair, low-VOC finishes, paint matching, structural frame repair, detailing, and flexible plastic component repair, and estimating. Detailed chapters on mechanical systems, such as brake systems, cooling systems, and restraint systems, allow students to recognize and repair common types of mechanical damage. This workbook is organized to follow the textbook on a chapter-by-chapter basis, providing questions to help the student review the material presented in the chapter. This supplement is a consumable resource, designed with perforated pages so that a given chapter can be removed and turned in for grading or checking.

This is a complete do-it-yourself guide. What you can learn:

- Full-color sections on minor repairs and painting
- Damage repair
