A tale of forbidden romance, adventure, and unprecedented betrayal awaits you in The Royal Rogue. Let your heart pound to the rhythm of clashing swords and thundering hooves in this adrenaline fueled adventure. Set within the fabled city of Nevaharday, the story begins with Jaycent Connor, a reluctant prince who refuses to assume his father's title after a mysterious illness took his parents lives. The lords of the land couldn't sway the prince to ascend the throne and assume his rightful place as ruler. The harder they tried, the farther the prince seemed to drift into a realm of apathy and solitude. Then the nightmares began. Terrible, brutal dreams that crossed the threshold into reality as the prince found himself waking up to the wounds he had sustained in his sleep. Rest became impossible as the life of Nevaharday's only heir teetered in the balance. Healers were baffled, their remedies useless. So Prince Connor took matters into his own hands. He sought the help of an outlawed band of horse folk known as “ the gypsies. ” Particularly, a green eyed beauty named Levee Tensley. Together they unravel the truth. The prince was never ill. Neither were his parents. It all led back the magic and lies of an illusionist bent on seizing his kingdom and extinguishing the Connor line. However, the more they uncover, the more they wonder: can they stop him? Or are their efforts too little, too late? Whether you're

a fantasy connoisseur, horse lover, or casual reader, Carlton's debut novel will have you enchanted from the first paragraph to the very last page. Her race of "horse folk" are original, charming, and so believable, they will pull you right into the story.

All states and dominions which hold or have held sway over mankind are either republics or monarchies. Monarchies are either hereditary ones, in which the rulers have been for many years of the same family, or else they are those of recent foundation. The newly founded ones are either entirely new, as was Milan to Francesco Sforza, or else they are, as it were, new members grafted on to the hereditary possessions of the prince that annexes them, as is the kingdom of Naples to the King of Spain. The dominions thus acquired have either been previously accustomed to the rule of another prince, or else have been free states, and they are annexed either by force of arms of the prince, or of others, or else fall to him by good fortune or merit. I will not here speak of republics, having already treated of them fully in another place. I will deal only with monarchies, and will show how the various kinds described above can be governed and maintained. In the first place, in hereditary states accustomed to the reigning family the difficulty of maintaining them is far less than in new monarchies; for it is sufficient not to exceed the ancestral usages, and to accommodate one's self to accidental circumstances; in this way such a prince, if of ordinary ability, will always be able to maintain his position, unless some very exceptional and excessive force deprives him of it; and even if he be thus deprived of it, on the slightest misfortune happening to the new occupier, he will be able to regain it. We have in Italy the example of the Duke of Ferrara, who was able to withstand the assaults of the Venetians in the year '84, and of Pope Julius in the year '10, for no other reason than because of the antiquity of his family in that dominion. In as much as the legitimate prince has less cause and less necessity to give offence, it is only natural that he should be more loved; and, if no extraordinary vices make him hated, it is only reasonable for his subjects to be naturally attached to him, the memories and causes of innovations being forgotten in the long period over which his rule has existed; whereas one change always leaves the way prepared for the introduction of another.

Although Murach's Beginning Visual Basic .NET is designed for people who are new to the .NET Framework, Visual Basic, or even programming, its goals are ambitious. In just 20 chapters, you'll learn how to develop graphical user interfaces, how to develop applications that work with databases through ADO.NET, how to develop web applications that use Web services and XML, and much more. It's all there in the unique Murach style that has been training professional programmers for more than 25 years.

When young Edward VI of England and a poor boy who resembles him exchange places, each learns something about the other's very different station in life.

A heavenly shade of blue was always in her eyes and her innocent smile captured the hearts of many. But even a beautiful smile can cover the ugliest of things. Who would've ever known that the beautiful and loving Princess MARRISA would fall victim to a very dark and hostile scheme, conjured up by something that is as old as time? No one did—not even Tairren, who was one of MARRISA's dearest friends. Overtaken by MARRISA's beauty and charm, Tairren was very much in love with her and would do anything for her—even if that meant facing the overwhelming powers of darkness... It was on MARRISA's long awaited sixteenth birthday, her engagement to Prince Phillip and the day before her enthronement to the kingdom of Ishkar, when it happened. When MARRISA is abducted by someone she had always trusted, she is forced into the Forbidden Lands of Minslethrate and awakens upon a plot that would shake the world. With the company of his very different comrades, the unconventional Lady Natalia and the arrogant Prince Phillip of Ishkar, Tairren travels across the uncertain lands of Minslethrate to rescue MARRISA. They begin to realize that their precarious situation is dealing with more than just a kidnapped princess—that's just the beginning... They must trust in the unseen God of Light and have faith in a legend that they don't even understand. While their beloved princess awaits a terrifying fate, they must become awakened by light if they are to face their own dark quest... Prophecy stirs, blood spills, light burns and darkness screams—revealing The Last Legend...

Aged emperor Thelden III Arrigar's last days are approaching and the Empire's leaders are taking sides in a struggle for power between rival heirs. Blood runs in the streets and the nights are thick with intrigue. Drake Arrigar, bastard prince and half-blooded sorcerer. Darius of Lorraddon, foreign-born initiate of a holy order of warriors sworn to the Empire. Leasha, senior maiden and chief spy for the Emperor's daughter. These three unlikely friends must navigate the coming storms as plots, violence, and unholy barbarians tear their lives apart. Their trials, failures, and triumphs will have far-reaching consequences, for their people and for their own futures.
