The Pillowbook of Doctor Jazz is autobiographical fiction in the tradition of Jack Kerouac: on the road in the Golden Triangle of Southeast Asia. Recalling the Japanese Pillowbook of Sei Shonogan, Dr. Jazz records the sights and sounds of his journeys, in the ironic voice of a traveller at end of day.

Adrian Rollini (1903/1956), an American jazz multi-instrumentalist, played the bass saxophone, piano, vibraphone, and an array of other instruments. He even introduced some, such as the harmonica-like cuesnophone, called Goofus, never before wielded in jazz. Adrian Rollini: The Life and Music of a Jazz Rambler draws on oral history, countless vintage articles, and family archives to trace Rollini's life, from his family's arrival in the US to his development and career as a musician and to his retirement and death. A child prodigy, Rollini was playing the piano in public at the age of five. At sixteen in New York he was recording pianola rolls when his peers recognized his talent and asked him to play xylophone and piano in a new band, the California Ramblers. When he decided to play a relatively new instrument, the bass saxophone, the Ramblers made their mark on jazz forever. Rollini became the man who gave this instrument its place. Yet he did not limit himself to playing bass parts;he became the California Ramblers' major soloist and created the studio and public sound of the band. In 1927 Rollini led a new band that included such jazz greats as Bix Beiderbecke and Frank Trumbauer. During the Depression years, he was back in New York playing with several bands including his own New California Ramblers. In the 1940s, Rollini purchased a property on Key Largo. He rarely performed again for the public but hosted rollicking jam sessions at his fishing lodge with some of the best nationally known and local players. After a car wreck and an unfortunate hospitalization, Rollini passed away at age fifty-three.

Legendary jazz ambassador Dr. Billy Taylor's autobiography spans more than six decades, from the heyday of jazz on 52nd Street in 1940s New York City to CBS Sunday Morning. Taylor fought not only for the recognition of jazz music as "America's classical music" but also for the recognition of black musicians as key contributors to the American music repertoire. Peppered with anecdotes recalling encounters with other jazz legends such as Jelly Roll Morton, Duke Ellington, Art Tatum, Count Basie, Billie Holiday, and many others, The Jazz Life of Dr. Billy Taylor is not only the life story of a jazz musician and spokesman but also a commentary on racism and jazz as a social force.

New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country. With award-winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself, while celebrating New York as both a place and an idea.

Dramatizes the life of Jelly Roll Morton, pianist, composer, and self-proclaimed inventor of jazz

The book is the volume of i(The Political History of the Spring and Autumn Period and the Warring States Period) among a series of books of :[Deep into China Histories]. The earliest known written records of the history of China date from as early as 1250 BC, from the Shang dynasty (c. 1600[1046 BC) and the Bamboo Annals (296 BC) describe a Xia dynasty (c. 2070[1600 BC) before the Shang, but no writing is known from the period The Shang ruled in the Yellow River valley, which is commonly held to be the cradle of Chinese civilization. However, Neolithic civilizations originated at various cultural centers along both the Yellow River and Yangtze River. These Yellow River and Yangtze civilizations arose millennia before the Shang. With thousands of years of continuous history, China is one of the world's oldest civilizations, and is regarded as one of the cradles of civilization.The Zhou dynasty (1046[256 BC) supplanted the Shang and introduced the concept of the Mandate of Heaven to justify their rule. The central Zhou government began to weaken due to external and internal pressures in the 8th century BC, and the country eventually splintered into smaller states during the Spring and Autumn period. These states became independent and warred with one another in the following Warring States period. Much of traditional Chinese culture, literature and philosophy first developed during those troubled times.In 221 BC Qin Shi Huang conquered the various warring states and created for himself the title of Huangdi or "emperor" of the Qin, marking the beginning of imperial China. However, the oppressive government fell soon after his death, and was supplanted by the longer-lived Han dynasty (206 BC | 220 AD). Successive dynasties developed bureaucratic systems that enabled the emperor to control vast territories directly. In the 21 centuries from 206 BC until AD 1912, routine administrative tasks were handled by a special elite of scholar-officials. Young men, well-versed in calligraphy, history, literature, and philosophy, were carefully selected through difficult government examinations. China's last dynasty was the Qing (1644[1912), which was replaced by the Republic of China in 1912, and in the mainland by the People's Republic of China in 1949.Chinese history has alternated between periods of political unity and peace, and periods of war and failed statehood | the most recent being the Chinese Civil War (1927[1949). China was occasionally dominated by steppe peoples, most of whom were eventually assimilated into the Han Chinese culture and population. Between eras of multiple kingdoms and warlordism, Chinese dynasties have ruled parts or all of China; in some eras control stretched as far as Xinjiang and Tibet, as at present. Traditional culture, and influences from other parts of Asia and the Western world (carried by waves of immigration, cultural assimilation, expansion, and foreign contact), form the basis of the modern culture of China.

From the Minds of Jazz Musicians: Conversations with the Creative and Inspired celebrates contemporary jazz artists who have toiled, struggled and succeeded in finding their creative space. The volume was developed through transcribing and editing selected interviews with 35 jazz artists, conducted by the author between 2009 and 2012 in New York City, with a historical essay on each artist to provide context. The interviews feature musicians from a broad range of musical styles and experiences, ranging from Gerald Wilson, born in 1918, to Chris Potter, born in 1971. Topics range from biographical life histories to artists' descriptions of mentor relationships, revealing the important life lessons they learned along the way. With the goal to discover the person behind the persona, the author elicits conversations that speak volumes on the creative process, mining the individualistic perspectives of seminal artists who witnessed history in the making. The interviews present the artists' candid and direct opinions on music and how they have succeeded in pursuing their unique and creative lives.
