- Goodreads

EVERYONE SEES THE ANTS by A.S. King is the haunting story of a boy confronting issues related to bullying and at the same time dealing with the multi-generational impact of the Vietnam War. I really enjoyed this book. I think it would be of interest to both male and female teens. The characters were well-developed and reacted realistically throughout.

Everybody Sees the Ants was that kind of book. While not actually a mystery, Everybody Sees the Ants is structured in such a way that readers do not initially get a linear story nor do they get the full story. Anyone looking for a puzzle to put together will enjoy the multiple angles of this book.

Five white teenage cousins who are struggling with the failures and racial ignorance of their dysfunctional parents and their wealthy grandparents, reunite for Easter.

Astrid Jones desperately wants to confide in someone, but her mother's pushiness and her father's lack of interest tell her they're the last people she can trust. Instead, Astrid spends

hours lying on the backyard picnic table watching airplanes fly overhead. She doesn't know the passengers inside, but they're the only people who won't judge her when she asks them her most personal questions . . . like what it means that she's falling in love with a girl. As her secret relationship becomes more intense and her friends demand answers, Astrid has nowhere left to turn. She can't share the truth with anyone except the people at thirty thousand feet, and they don't even know she's there. But little does Astrid know just how much even the tiniest connection will affect these strangers' lives--and her own--for the better. In this truly original portrayal of a girl struggling to break free of society's definitions, Printz Honor author A.S. King asks readers to question everything--and offers hope to those

A heartbreaking and mindbending story of a talented teenage artist's awakening to the brokenness of her family from acclaimed Printz award-winner A.S. King. Sixteen-year-old Sarah can't draw. This is a problem, because as long as she can remember, she has "done the art." She thinks she's having an existential crisis. And she might be right; she does keep running into past and future versions of herself as she wanders the urban ruins of Philadelphia. Or maybe she's finally waking up to the tornado that is her family, the tornado that six years ago sent her once-beloved older brother flying across the country for a reason she can't quite recall. After decades of staying together "for the kids" and building a family on a

foundation of lies and domestic violence, Sarah's parents have reached the end. Now Sarah must come to grips with years spent sleepwalking in the ruins of their toxic marriage. As Sarah herself often observes, nothing about her pain is remotely original—and yet it still hurts. Insightful, heartbreaking, and ultimately hopeful, this is a vivid portrait of abuse, survival, resurgence that will linger with readers long after the last page. "Read this book, whatever your age. You may find it's the exact shape and size of the hole in your heart."—The New York Times "Surreal and thought-provoking."—People Magazine "A deeply moving, frank, and compassionate exploration of trauma and resilience, filled to the brim with incisive, grounded wisdom." —Booklist,

In this fearless portrayal of a boy on the edge, highly acclaimed Printz Honor author A.S. King explores the desperate reality of a former child "star" struggling to break free of his anger. Gerald Faust started feeling angry even before his mother invited a reality TV crew into his five-year-old life. Twelve years later, he's still

haunted by his rage-filled youth--which the entire world got to watch from every imaginable angle--and his anger issues have resulted in violent outbursts, zero friends, and clueless adults dumping him in the special education room at school. No one cares that Gerald has tried to learn to control himself; they're all just waiting for him to snap. And he's starting to feel dangerously close to doing just that...until he chooses to create possibilities for himself that he never knew he deserved.

Denton has spent years being periodically abducted by aliens. Then the aliens give him an ultimatum: The world will end in 144 days, and all Henry has to do to stop it is push a big red button. Only he isn't sure he wants to. After all, life hasn't been great for Henry. His mom is a struggling waitress held together by a thin layer of cigarette smoke. His brother is a jobless dropout who just knocked someone up. His grandmother is slowly losing herself to Alzheimer's. And Henry is still dealing with the grief of his boyfriend's suicide last year. Wiping the slate clean sounds like a pretty good choice to him. But Henry is a scientist first, and facing the question thoroughly and logically, he begins to look for pros and cons: in the bully who is his perpetual one-night stand, in the best friend who betrayed him, in

A brilliant and surreal novel about isolation and human connection, from award-winning author A. S. King.

Four teenagers are on the verge of exploding. The anxieties they face at every turn have nearly pushed them to the point of surrender: senseless high-stakes testing, the lingering damage of past trauma, the buried grief and guilt of tragic loss. They are desperate to cope, but no one is listening. So they will lie. They will split in two. They will

Because, as they discover, the only way to truly escape their world is to fly right into it. The genius of acclaimed author A.S. King reaches new heights in this groundbreaking work of surrealist fiction; it will mesmerize readers with its deeply affecting exploration of how we crawl through traumatic experience--and find the way out.
