1. INTRODUCTION. The objective of this case study is to reinforce the messages contained in the Audit Planning & Risk Assessment Guide through the completion of a practitioner based case study that will cover the following key stages in the audit planning and risk assessment cycle: Identification of the Audit Universe and related objectives; Identification of specific risks, the measurement of these risks and how this can be used to focus audit activities on high risk areas;

CASE STUDY AUDIT PLANNING & RISK ASSESSMENT 1. INTRODUCTION

Case Studies. A collaborative effort of the Anti-Fraud Collaboration, these case studies are educational tools for all members of the financial reporting supply chain, as well as students. Participants in case study teachings start with a hypothetical scenario about a fictional company dealing with a fraud. Guided by an instructor, they then discuss what could have been done to address the situation.

Case Studies | The Center for Audit Quality

The research design and methodology for the study was qualitative. Data was collected using the case study approach, wherein on the one hand, one-on-one interviews with senior managers were conducted and on the other, open-ended questionnaires were completed by junior managers. This article suggests that, if all the necessary conditions under which an internal audit function can promote ethics in the profession, are not in place, the function itself also fails in improving ethical ...
