A study investigated the factors that affect language choices and uses within Luxembourg, a multilingual country. Patterns of language use within and across communities are viewed in terms of the interrelationships among language policy intent, implementation, and experience. The study involved classroom observation in elementary, secondary, and postsecondary schools, interviews with teachers and school administrators, and case studies of working, middle, and upper class ...

Language Planning in Multilingual Contexts: Policies ...

Abstract. This volume examines the sociocultural factors that influence language choices and uses in the multilingual country of Luxembourg. Patterns of language use within and across communities are viewed in terms of interrelationships among language policy intent, implementation, and experience. The study considers the ways in which the language and social experiences within low socioeconomic communities differ from school expectations and how these differences affect achievement of both ...

Language Planning in Multilingual Contexts: Policies ...

Abstract. This paper overviews some of the domains of application of micro-level language planning approaches to foster multilingual education. It examines the language planning of local agents and the contexts in which their work contributes to multilingual education, either to expand or limit educational possibilities.

Micro language planning for multilingual education: agency ...

In terms of policy, planning, pedagogy and practice, languages can either negate, recognize, tolerate, respect or nurture each other, or go beyond that and share mutual space (Durairajan, 2003). Currently, English classrooms in India do not even recognize languages other than English that are a part of the repertoire of students.

Language Teaching in Multilingual Contexts: Using the ...

The paper argues that a typology of multilingual contexts that witness different kinds of development of languages and national identities has to be viewed as a cline. At one extreme lie Type A societies in which 'language' as an entity is anthropomorphized by its speakers, so much so that in some communities, it is revered and regarded as an ...

Teaching and learning English in a multilingual classroom

Language planning is a deliberate effort to influence the function, structure or acquisition of languages or language varieties within a speech community. Robert L. Cooper defines language planning as "the activity of preparing a normative orthography, grammar, and dictionary for the guidance of writers and speakers in a non-homogeneous speech community " . Along with language ideology and language practices, language planning is part of language policy - a typlogy drawn from Bernard Spolsky ...

Language planning - Wikipedia

It identifies four broad contexts of language planning activity in which local agents work: the local implementation of macro-level policy, contestation of macro-level policy, addressing local...

(PDF) Micro language planning for multilingual education ...

ABSTRACT Studies on language policies and planning in Nigeria have mostly focused on education while the broadcast media domain has received very little attention. This situation may be attributed to the fact that unlike in the educational sector where there is an explicit and substantially detailed structure of language policy and planning, there is no such thing in the Nigerian broadcasting ...

Language Policy and Planning in the Broadcast Media of a ...

Decisions around language policy and planning are made around the globe every day, both formally by governments and informally by scholars and community leaders. These decisions influence the right to use and maintain languages, affect language status, and determine which languages are nurtured. Language policy and planning decisions have a major impact on language vitality and, ultimately, on the rights of the individual.

Language Planning & Policy - CAL

For instance, language teachers have to be ready to develop practices that aim at dealing with multilingualism and plurilingualism on multiple levels (e.g., syllabi policies, individual learners) and to various degrees (e.g., develop a general understanding, develop specific techniques for dealing with multilingual literacies). Language teachers faced with the challenge of multilingualism and plurilingual repertoires can no longer draw on single resources like bringing in materials in a ...

Multilingualism and the language education landscape ...

In this article, we apply Ruiz's language-as-resource orientation to three international settings: Taiwan, Pakistan, and mainland China. Our guiding question was how different languages (indigenous languages, Chinese, and English) were positioned differently as resources in these contexts. For our analysis, we used Lo Bianco's (2001) elaboration of the language-as-resource framework as our ...
