When a dike breaks during a violent storm, flooding a little Dutch town, Nico's baby is saved by his heroic cat.

Reflective practice is at the heart of effective teaching, and this book helps you develop into a reflective teacher of English. Everything you need is here: guidance on developing your analysis and self-evaluation skills, the knowledge of what you are trying to achieve and why, and examples of how experienced teachers deliver successful lessons. The book shows you how to plan lessons, how to make good use of resources and how to assess pupils' progress effectively. Each chapter contains points for reflection, which encourage you to break off from your reading and think about the challenging questions that you face as a new teacher. The book comes with access to a companion website, [www.sagepub.co.uk/secondary](http://www.sagepub.co.uk/secondary), where you will find: - Videos of real lessons so you can see the skills discussed in the text in action - Links to a range of sites that provide useful additional support - Extra planning and resource materials. If you are training to teach English this book will help you to improve your classroom performance, by providing you with practical advice, but also by helping you to think in depth about the key issues. It also provides examples of the research evidence that is needed in academic work at Masters level, essential for anyone undertaking an M-level PGCE.

J.J. must baby-sit his little sister for a week while their mother is at work. The siblings have fun together doing different things each day, and on the last day they decide to paint a mural on the garden shed. Just when they're finishing, little sister has an accident and paint spills everywhere. When Mom arrives she is horrified by the mess, that is until she notices the mural.

This unique and ground-breaking book is the result of 15 years research and synthesises over 800 meta-analyses on the influences on achievement in school-aged students. It builds a story about the power of teachers, feedback, and a model of learning and understanding. The research involves many millions of students and represents the largest ever evidence based research into what actually works in schools to improve learning. Areas covered include the influence of the student, home, school, curricula, teacher, and teaching strategies. A model of teaching and learning is developed based on the notion of visible teaching and visible learning. A major message is that what works best for students is similar to what works best for teachers – an attention to setting challenging learning intentions, being clear about what success means, and an attention to learning strategies for developing conceptual understanding about what teachers and students know and understand. Although the current evidence based fad has turned into a debate about test scores, this book is about using evidence to build and defend a model of teaching and learning. A major contribution is a fascinating benchmark/dashboard for comparing many innovations in teaching and schools.

Molly loves to play. Play at horse riding. Play at making a dinosaur. So when her mother says Molly, tidy up, she never has time to finish the job. But soon Molly realises that while she is not tidying up something is. She is determined to find out who or what it is.

Prepare to be utterly amazed by the latest instalment of Charlie Small's incredible yet 100% true adventures. On his way to Jakeman's factory, Charlie is grabbed by Tristram Twitch, who sends him off on three dangerous errands. Charlie must find a pearl from the giant oyster beds of the Pangaeon Ocean, a diamond-encrusted tiara from a mummified corpse, and a gold quill from the back of the extremely rare golden porcupine of Mayapazan. AND he has to befriend his old enemy, Thrak the gorilla along the way! If he doesn't succeed, Jakeman will be fed to a man-eating barracuda - and Charlie will NEVER get back home...!

The separate Practice Papers are similar in both appearance and content to the actual Science tests and give children further opportunities to prepare for them. Each page is cross-referenced to the Revision Guide, which children can refer to for help. Full instructions and easy-to-use marking schemes are provided.

'Children, Their World, Their Education' is more than a ground-breaking report. It is an unrivalled educational compendium. It assesses two decades of government-led reform. It offers a vision for the future. It goes to the heart of what education in a democracy is about.
