The European Society of MusculoSkeletal Radiology is an educational, scientific Society concerned with advancement of the art and science of musculoskeletal radiology. To promote this mission, the ESSR has issued technical standards for ultrasound examination of joints, including the shoulder, the elbow, the wrist, the hip, the knee and the ankle. These US guidelines were first

## *Ultrasound - European Society of Musculoskeletal Radiology*

The main drawbacks of musculoskeletal ultrasound remain a strong operator dependence and the lack of standardized scanning protocols. To overcome this limitation, the European Society of Musculoskeletal Radiology (ESSR) has issued technical standards for ultrasound examination of joints, including the shoulder, the elbow, the wrist, the hip, the knee and the ankle.
