media and supplements. Most of all, each Myers text demonstrates why this author's style works so well for students, with his signature compassionate, companionable voice, and superb judgment about how to communicate the science of psychology and its human impact. Why Modules? This modules-based version of Myers' best-selling, full-length text, Psychology (breaking down that book's 16 chapters into 59 short modules) is yet another example of the author's ability to understand what works in the classroom. It comes from Myers' experiences with students who strongly prefer textbooks divided into briefer segments instead of lengthier chapters, and with instructors who appreciate the flexibility offered by the modular format. Modular organization presents material in smaller segments. Students can easily read any module in a single sitting. Self-standing modules. Instructors can assign modules in their own preferred order. The modules make no assumptions about what students have previously read. Illustrations and key terms are repeated as needed. This modular organization of short, stand-alone text units enhances teacher flexibility. Instead of assigning the entire Sensation and Perception chapter, instructors can assign the module on vision, the module on hearing, and/or the module on the other senses in whatever order they choose. With an undeniable gift for writing, Dr. Myers will lead your students on a guided tour of psychological science and poignant personal stories. Dr. Myers teaches, illuminates, and inspires. Four years ago, we published this ground-breaking text which is correlated directly to the AP® course. Today, we build on that innovation and proudly introduce the 2nd AP® Edition. Whether you are new to AP® psychology or have many years under your belt, this uniquely AP® book program can help you achieve more.

"This is a book I (David) secretly wanted to write. I have long believed that what is wrong with all psychology textbooks (including those I have written) is their overlong chapters. Few can read a 40-page chapter in a single sitting without their eyes glazing and their mind wandering. So why not organize the discipline into digestible chunks-say forty 15-page chapters rather than fifteen 40-page chapters-that a student could read in a sitting, with a sense of completion? Thus, when McGraw-Hill psychology editor Chris Rogers first suggested that I abbreviate and restructure my 15-chapter, 600-page Social Psychology into a series of crisply written 10-page modules, I said "Eureka!" At last a publisher willing to break convention by packaging the material in a form ideally suited to students' attention spans. By presenting concepts and findings in smaller bites, we also hoped not to overload students' capacities to absorb new information. And, by keeping Exploring Social Psychology slim, we sought to enable instructors to supplement it with other reading"--

This new edition provides a state-of-the-art introduction to psychology that merges the rigor of science with a broad human perspective. All the Myers' hallmarks are here—the vivid presentation, intense attention to detail and currency in the field, research-based study aids and media learning tools, and above all, the inviting, authorial voice of David Myers that speaks to the life experiences of all kinds of students.

Announcing a new Myers/DeWall text, created specifically for the Fall 2019 AP® course framework! You are likely familiar with the name Dr. David G. Myers. Now, he and his new co-author, Nathan DeWall, bring you a book that will allow you to use College Board's new Personal Progress Checks and Dashboard more effectively. This updated edition includes 100% of the new course content in the new nine-unit structure. All teacher and student resources

will also be updated to correlate to the new student edition; this includes the TE, TRFD, TB, Strive, and LaunchPad. Everything will publish in summer 2020 such that you can use this new program for Fall 2020 classes. If you're not familiar with Myers/DeWall texts, you are in for a treat! Drs. Myers and DeWall share a passion for the teaching of psychological science through wit, humor, and the telling of poignant personal stories (individually identified in the text by the use of each author's initials [DM and ND]). Through close collaboration, these authors produce a unified voice that will teach, illuminate, and inspire your AP® students.

An introduction to psychology course. The author's updating and integrated use of the SQ3R learning system (Survey, Question, Read, Rehearse, Review) help to make the text accessible. A comprehensive supplements package is available to help both students and instructors.
