Crisis management practices are engaged before, during and after a crisis. Recovery crisis management vs. risk management. Before a crisis begins, pre-crisis planning aims to identify risks and then find ways to mitigate or lessen those risks. It is important to note, however, that crisis management and risk management are two different things.

What is Crisis Management?

Not only do they have very distinct meanings, but they need a different management response. Of course they are closely related. Issues can be the warning signs that a crisis is possible. And issue management can be regarded as a powerful tool for crisis prevention. In fact a crisis has been known to be described as an issue that WASN'T managed. But the reality is that issues and crises are very different in nature and need to be managed in different ways.
