Questo volume è parte dell'opera Schritte international Neu che propone storie avvincenti accompagnate da foto e corredate da ascolti, in grado di appassionare gli studenti e avvicinarli alla realtà dei paesi D-A-CH.

This revised and updated paperback edition covers the introduction of the euro, the fall of Milosevic, and the impact of September 11 in European integration. The rejuvenation of Europe as a totalitarian century ends and a global century begins is a remarkable story. This book brings together the three dynamics of Europe's position at this extraordinary moment: European monetary union, the deepening of intra-EU cooperation, and the widening of the EU and NATO to take in central European members. It looks at the broad political and policy implications of EMU and shows how the United States views this integration. Elizabeth Pond, a longtime observer of events in Europe and Russia, sees these developments as the beginning of a new postnational European system that is replacing the centuries-old nation-state system. She shows how belligerence and anarchy have faded away on the European continent as compulsory cold war cooperation becomes a habit and as French-German reconciliation becomes the pattern for reconciliation between other old enemies. She follows NATO's transformation into a reluctant peacemaker in Bosnia and the United States' decision to remain a European power. She describes the leap of faith needed to create European monetary union and charts the magnetic attraction of both NATO and the EU in shaping the democratic, economic, and social revolutions in central Europe. She warns about the strains that will face the transatlantic relationship when the euro is on a par with the dollar as a reserve currency. And she concludes by agreeing with former Polish foreign minister Wladyslaw Barteszewski that we are witnessing, after the original birth of European consciousness a millennium ago, the rebirth of Europe.

These proceedings represent the work of contributors to the 16th European Conference on Innovation and Entrepreneurship (ECIE 2021), hosted by ISCTE Business School, Instituto Universitário de Lisboa, Portugal on 16-17 September 2021. The Conference Chair is Dr. Florinda Matos and the Programme Co-Chairs are Prof Maria de Fátima Ferreira, Prof Álvaro Rosoi and Prof Isabel Salavisa all from Instituto Universitário de Lisboa, Portugal. ECIE is a well-established event on the academic research calendar and now in its 16th year, the key aim remains the opportunity for participants to share ideas and meet the people who hold them. The conference was due to be held at Instituto Universitário de Lisboa, Portugal, but due to the global Covid-19 pandemic it was moved online to be held as a virtual event. The scope of papers will ensure an interesting two days. The subjects covered illustrate the wide range of topics that fall into this important and ever-growing area of research. The keynote presentation is given by Soumodip Sarkar, Vice-Rector, from University of Évora, Portugal on the topic of Social Intelligence. The second day of the conference will open with an address by

Professor Vittorio Loreto, Sapienza University of Rome, Italy, who will talk about Exploring the adjacent possible: play, anticipation, surprise.

This edited volume constitutes the first serious, sustained examination of the study of children's books for children aged from 0 to 3 with contributions by scholars working in different domains and attempting to assess the recognition of the role and influence of children's literature on the cognitive, linguistic, psychological and aesthetic development of young children. This collection achieves a balance between theoretical, empirical, historical and cross-cultural approaches by examining the broad range of children's books for children under three years of age, ranging from early-concept books through wimmelbooks and ABC books for small children to picture books that support the young child's acquisition of behavioral norms. Most importantly, the chapters proffer new insights into the strong relationship between children's books for young children and emergent literacy, drawing on current research in children's literature research, visual literacy, cognitive psychology, language acquisition, picture theory and pedagogy.
