While some of the stories actually are about cars found in barns or sheds, author Wyss has taken the liberty of expanding the definition of "barn find" to include any collector car found derelict, ignored, in pieces, or generally found in circumstances belying its stature. This could include cars parked in fields, found in cellars, left in parking garages, or even found under a pile of cars in a junkyard. What the cars do have in common is that they are valuable and exotic and have histories chock full of unimaginable twists and turns. Take, for instance the Two Rotor Corvette, a car that cost GM \$2 million to build and then they flat gave it away to the first guy that asked. Same thing for a GT40 roadster, one of four built, and Ford goes and hands the keys to a movie car customizer who kept it for decades and never quite got it up on the big screen. That car today is worth \$4 million. So, if you're into collector cars and love the thrill of the hunt, then you'll truly appreciate the 50 stories Wyss has selected for this first in the series.

Ever wonder what it would be like to work Public Relations for Ford, or General Motors? Imagine a thousand cameras flashing in your eyes through a forest of microphones, everyone millions of dollars and world-wide headlines riding on your every word as you try to navigate your company through crisis, time and time again. It's not for the faint of heart... But it does make for one entertaining memoir! Welcome to the life of Jason Vines, the man who preserved the good name of Ford/Firestone, Jeep, General Motors, Nissan, Chevy, and other mega-companies throughout one catastrophe after the next. In Vines' candid first book, "What Did Jesus Drive", you'll hear about all the trials, tribulations, hilarity, and heartbreak of being a master PR consultant – straight from the man with the silver tongue himself! Outrageous as it is insightful, shocking as it is refreshing; "What Did Jesus Drive" will have you laughing yourself hoarse all the while teaching you how to keep your cool with IT hits the fan! This isn't the PR class you took in Business School! And

relax; this is not a book about Jesus. (Although he does appear in two chapters: first as a Hispanic grandfather from Waterford, Michigan, and later as the real Prince of Peace.) No, this book is about a life in the public relations blast furnace of the automotive industry; being the only man on the front line. If you're a company owner, CEO, PR professional, the lessons and stories in this book are **INVALUABLE** for you and everyone in your PR department! Even if you're just somebody who enjoys a look into the wild ride in the world of corporate America, this book is for you. Get your copy of "What Did Jesus Drive" now, and let the games begin! ****Reviews**** "Jason's story telling is his honest account of time well spent in a career documenting numerous pivotal events we all want to hear about." – Lee Iacocca "Get me Jason Vines! How I wish as the candidates I worked for screamed, screwed, or gaffed their way into crisis, I had called on Jason Vines. This is more than a corporate PR book - it's a masters' class, no holds barred, white knuckle ride of insights and wisdom for anyone whose job it is to communicate for a living." – ?????? "Jason Vines in raw and real story telling of his own journey explains to every politician, celebrity, corporate communications professional and government agency that has ever faced trouble (yes I am talking about you NFL - read this one Goodell!) why we have such a hard time telling the truth, why that's the whole frickin' problem and what we can do about it." – Joe Trippi, Democratic Campaign and Media Consultant. "Jason Vines lived The Hurt Locker, defusing one public relations I.E.D. after another. To think some of the largest corporations we can name have been this close to pure PR disaster, and yet were saved by the insight Jason earned from decades of corporate cage fights, is truly amazing." – Dutch Mandel, AutoWeek Publisher "I always knew I could count on Jason for an unbiased and honest opinion." – Dr. Ricardo Martinez, MD, FACEP and former NHTSA Administrator

From the Chrysler Six of 1924 to the front-wheel-drive vehicles of the 70s and 80s to the minivan, Chrysler boasts an impressive list of technological "firsts." But even though the company has catered well to a variety of consumers, it has come to the brink of financial ruin more than once in its seventy-five-year history. How Chrysler has achieved monumental success and then managed colossal failure and sharp recovery is explained in *Riding the Roller Coaster*, a lively, unprecedented look at a major force in the American automobile industry since 1925. Charles Hyde tells the intriguing story behind Chrysler-its products, people, and performance over time-with particular focus on the company's management. He offers a lens through which the reader can view the U.S. auto industry from the perspective of the smallest of the automakers who, along with Ford and General Motors, make up the "Big Three." The book covers Walter P. Chrysler's life and automotive career before 1925, when he founded the Chrysler Corporation, to 1998, when it merged with Daimler-Benz. Chrysler made a late entrance into the industry in 1925 when it emerged from Chalmers and Maxwell, and further grew when it absorbed Dodge Brothers and American Motors Corporation. The author traces this journey, explaining the company's leadership in automotive engineering, its styling successes and failures, its changing management, and its activities from auto racing to defense production to real estate. Throughout, the colorful personalities of its leaders-including Chrysler himself and Lee Iacocca-emerge as strong forces in the company's development, imparting a risk-taking mentality that gave the company its verve.

Lockdown America documents the horrors and absurdities of militarized policing, prisons, a fortified border, and the war on drugs. Its accessible and vivid prose makes clear the links between crime and politics in a period of gathering economic crisis.

Acclaimed exploration of the political space created by Israel's colonial occupation This new edition of the classic work on the politics of architecture—and the architecture of politics—appears on the fiftieth anniversary of the Six-Day War, which expanded Israel's domination over Palestinian lands. From the tunnels of Gaza to the militarized airspace of the Occupied Territories, Eyal Weizman unravels Israel's mechanisms of control and its transformation of Palestinian homes into a war zone under constant surveillance. This is essential reading for those seeking to understand how architecture and infrastructure are used as lethal weapons in the formation of Israel.
