**THE SUCCESSFUL INTERNSHIP:
PERSONAL, PROFESSIONAL, AND
CIVIC DEVELOPMENT**, 4th Edition,
offers you more than just a resource for how
to find a position or how to interview. It
addresses the concerns, emotions, needs,
and unique personal challenges that are the
essence of an internship or field experience,
and focuses on the internship as a vehicle for
your development as a civic professional.
The authors describe in detail the path of

Many societal and cultural changes have taken place over the past several decades, almost all of which have had a significant effect on the mental health professions. Clinicians find themselves encountering clients from highly diverse backgrounds

more and more often, increasing the need for a knowledge of cross-cultural competencies. Ellis and Carlson have brought together some of the leaders in the field of multicultural counseling to create a text for mental health professionals that not only addresses diversity but also emphasizes the counselor's role as an advocate of social justice. The theoretical foundation for this book rests on research into diversity, spirituality, religion, and color-specific issues. Each chapter addresses the unique needs and relevant issues in working with a specific population, such as women, men, African Americans, Asian Americans, Spanish-speaking clients, North America's indigenous people, members of the LGBT community, new citizens, and the poor, underserved, and underrepresented. Issues that enter into the counselor-patient relationship are discussed in detail for all of these groups, with the hope that this will lead

to a greater understanding and sensitivity on the part of the counselor for their patients. This is an important and timely book for both counselors-in-training and those already established as professionals in today's highly diverse and constantly-changing society.

Anxiety in children and adolescents is expected and normal at specific times in development. If anxieties become severe and begin to interfere with the daily activities of childhood, such as separating from parents, attending school and making friends, evidence shows that a treatment program based on the principles of cognitive-

behavioral therapy can help. Written by the developers of an empirically supported and effective CBT program for treating adolescents with Social Anxiety Disorder, this therapist guide includes all the information and materials necessary to implement successful treatment with groups. The treatment described is research-based with a proven success-rate when used in a group therapy setting. The renowned authors provide clinicians with step-by-step instructions for teaching their adolescent clients skills that have been scientifically tested and shown to be effective in treating SAD, as well as shyness, lack of assertiveness, or introversion. Designed to be used with the corresponding workbook, this guide outlines a two-phase program focusing on skill development and exposure exercises. When used together, both books form a complete treatment package that can be successfully used by practicing mental health

The neotropical primate family Pitheciidae consists of four genera Cacajao (uacaris), Callicebus (titis), Chiropotes (bearded sakis) and Pithecia (sakis), whose 40+ species display a range of sizes, social organisations, ecologies and habitats. Few are well known and the future survival of many is threatened, yet pitheciines have been little studied. This book is the first to review the biology of this fascinating and diverse group in full. It includes fossil history, reviews of the biology of each genus and, among others, specific treatments of vocalisations and foraging ecology. These studies are integrated into considerations of current status and future conservation requirements on a country-by-country basis for each species. A state-of-the-art summary
