The Authoritarian Dynamic Paperback - Aug. 1 2005

It illustrates how authoritarianism is embedded in the way people think, hiding in culture, values, daily life, and in the very morality people try to live by. The book unmaskes authoritarianism in such areas as relationships, cults, 12-step groups, religion, and contemporary morality.

The Authoritarian Dynamic by Karen Stenner
Basically, what "The Authoritarian Dynamic" is attempting to do is to avoid the academic roadblocks (which she documents well) to explaining a relevant social dynamic--the basis of "fringe" (primarily on the right end of the political spectrum) attitudes and behaviors. Why do tea partiers, for example, think and behave as they do?

Authoritarian Dynamic (05) by Stenner, Karen
[Paperback ...

A landmark study of [the 60's counterculture] era was a thousand page long volume, published in 1950, by Theodore Adorno, called The Authoritarian Personality. Although since criticised on grounds of methodology, the continuing relevance of its findings gave rise to a new edition in 2019. I opened it at random as I wrote this paragraph.

Where To Download The Authoritarian Dynamic Paperback

What are the root causes of intolerance? This book addresses that question by developing a universal theory of what determines intolerance of difference in general, which includes racism, political intolerance, moral intolerance and punitiveness. It demonstrates that all these seemingly disparate attitudes are principally caused by just two factors: individuals' innate psychological predispositions to intolerance ("authoritarianism") interacting with changing conditions of societal threat. The threatening conditions, particularly resonant in the present political climate, that

Where To Download The Authoritarian Dynamic Paperback

exacerbate authoritarian attitudes include, most critically, great dissension in public opinion and general loss of confidence in political leaders. Using purpose-built experimental manipulations, cross-national survey data and in-depth personal interviews with extreme authoritarians and libertarians, the book shows that this simple model provides the most complete account of political conflict across the ostensibly distinct domains of race and immigration, civil liberties, morality, crime and punishment, and of when and why those battles will be most heated.

This book develops a general theory of intolerance of difference.

Although politics at the elite level has been polarized for some time, a scholarly controversy has raged over whether ordinary Americans are polarized. This book argues that they are and that the reason is growing polarization of worldviews - what guides people's view of right and wrong and good and evil. These differences in worldview are rooted in what Marc J. Hetherington and Jonathan D. Weiler describe as

Where To Download The Authoritarian Dynamic Paperback

authoritarianism. They show that differences of opinion concerning the most provocative issues on the contemporary issue agenda - about race, gay marriage, illegal immigration, and the use of force to resolve security problems - reflect differences in individuals' levels of authoritarianism. Events and strategic political decisions have conspired to make all these considerations more salient. The authors demonstrate that the left and the right have coalesced around these opposing worldviews, which has provided politics with more incandescent hues than before.

Today, electoral authoritarianism represents the most common form of political regime in the developing world – and the one we know least about. Filling in the lacuna, this book presents cutting-edge research on the internal dynamics of electoral authoritarian regimes.

Stephen J. King considers the reasons that international and domestic efforts toward democratization have failed to take hold in the Arab world. Focusing on Egypt, Tunisia, Syria, and Algeria, he suggests that a

Where To Download The Authoritarian Dynamic Paperback

complex set of variables characterizes authoritarian rule and helps to explain both its dynamism and its persistence. King addresses, but moves beyond, how religion and the strongly patriarchal culture influence state structure, policy configuration, ruling coalitions, and legitimization and privatization strategies. He shows how the transformation of authoritarianism has taken place amid shifting social relations and political institutions and how these changes have affected the lives of millions. Ultimately, King's forward-thinking analysis offers a way to enhance the prospects for

democracy in the Middle East and North Africa.

First Published in 2004. Routledge is an imprint of Taylor & Francis, an informa company.

Donald Trump may be gone from the White House, but the 75 million people who voted for him are still out there . . . Updated to reflect election results, this is a look at the entirety of the Trump phenomenon, using psychological and social science studies, as well as polling analyses, to understand

Where To Download The Authoritarian Dynamic Paperback

Donald Trump's followers, and what they will do now that he's gone. To find out, John Dean, of Watergate fame, joined with Bob Altemeyer, a professor of psychology with a unique area of expertise: Authoritarianism. Relying on social science findings and psychological diagnostic tools (such as the "Power Mad Scale" and the "Con Man Scale"), and including exclusive research and analysis from the Monmouth University Polling Institute (one of America's most respected public opinion research foundations), the authors provide us with an eye-opening understanding of the Trump phenomenon – and

how it may not go away, whatever becomes of Trump.

“What makes Trump immune is that he is not a president within the context of a healthy Republican government. He is a cult leader of a movement that has taken over a political party – and he specifically campaigned on a platform of one-man rule. This fact permeates “Can It Happen Here? . . . which concludes, if you read between the lines, that “it” already has.” – New York Times Book Review
From New York Times bestselling author Cass R. Sunstein, a compelling collection of

Where To Download The Authoritarian Dynamic Paperback

essays by the brightest minds in America on authoritarianism. With the election of Donald J. Trump, many people on both the left and right feared that America's 240-year-old grand experiment in democracy was coming to an end, and that Sinclair Lewis' satirical novel, *It Can't Happen Here*, written during the dark days of the 1930s, could finally be coming true. Is the democratic freedom that the United States symbolizes really secure? Can authoritarianism happen in America? Acclaimed legal scholar, Harvard Professor, and New York Times bestselling author Cass R. Sunstein queried a number of the nation's

Where To Download The Authoritarian Dynamic Paperback

leading thinkers. In this thought-provoking collection of essays, these distinguished thinkers and theorists explore the lessons of history, how democracies crumble, how propaganda works, and the role of the media, courts, elections, and "fake news" in the modern political landscape—and what the future of the United States may hold.

and how political pragmatism constrained it.

For the first time since the end of the Cold War, the world is steadily becoming less democratic. The true culprits are dictators and counterfeit democrats. But, argues Klaas, the West is also an accomplice, inadvertently assaulting pro-democracy forces abroad as governments in Washington, London and Brussels chase pyrrhic short-term economic and security victories. Friendly fire from Western democracies against democracy abroad is too high a price to pay for a myopic foreign policy that is ultimately making the

Where To Download The Authoritarian Dynamic Paperback

world less prosperous, stable and democratic. The Despot's Accomplice draws on years of extensive interviews on the frontlines of the global struggle for democracy, from a poetry-reading, politician-kidnapping general in Madagascar to Islamist torture victims in Tunisia, Belarusian opposition activists tailed by the KGB, West African rebels, and tea-sipping members of the Thai junta. Cumulatively, their stories weave together a tale of a broken system at the root of democracy's global retreat.
