This teaching tool is a complete textbook, designed to accomplish several purposes. Being a practical help and a real-world teacher's aid is by far the grandest. Teachers are often left in academic circumstances that challenge them to be individually creative. Whereas the typical teacher does indeed possess great creative powers as well as the zealous enthusiasm to meet any and virtually every challenge, time restrictions often prove a foe most unconquerable. Speaking as a teacher of more than two and a half decades (as of this writing), I've become fully aware of what's needed in my personal classroom to get the most production out of my students and to give them the greatest opportunity to learn. In times past, I often found myself wishing for tools that made that job easier for me and for them. That is what this text is designed to accomplish - its goal is to provide teachers with tools and tactics that make teaching and learning easier.

A top entrepreneur helps readers breathe life into a stagnant business by overhauling their approach to branding and customer service. Packed with 75 simple, actionable strategies straight from the trenches of the service industry, this book explores the peaks and valleys of running your own business through the eyes of a proven expert. Growing up in a single-parent family in the Midwest, author Tony Hartl had the odds stacked against him. From a young age, Hartl took little more than an entrepreneurial spirit and a lot of hard work and turned it into one profitable business after another. By applying the tips detailed in this book, he overcame the obstacles of poverty, became a homeowner while still in his teens, and put himself through college. His greatest success, founding and running the Planet Tan Corporation, saw his net worth jump from \$10,000 to millions of dollars in a thirteen-year period. Hartl's example is a blueprint for creating, maintaining, and growing a meaningful business with a fulfilling company culture.
